

SECURE YOUR WATER. PROTECT YOUR OPERATIONS.

INDEPENDENT SUPPLY • PURIFICATION • STORAGE • ONGOING MANAGEMENT

Municipal water disruptions, ageing infrastructure, and drought conditions can severely impact operations and profitability.

Blue Reef provides complete water security solutions, helping industrial facilities secure a reliable, compliant, and cost-effective water supply.

SUCCESS STORY

INDUSTRIAL PARK – NEW GERMANY, KWA ZULU-NATAL

Blue Reef successfully developed and implemented a complete water security solution that now delivers:

BOREHOLE DEVELOPED

FULLY INTEGRATED PURIFICATION PLANT INSTALLED

6,000 LITRES/HOUR POTABLE WATER PRODUCED

200,000 LITRES STORAGE CAPACITY

ZERO DISRUPTION DURING MUNICIPAL OUTAGES

WATER SECURITY

Reliable independent supply

REDUCED OPERATING COSTS

Lower costs, higher efficiency

SANS 241 COMPLIANCE

Potable water that meets regulatory standards

[Contact us here](#)

6,000 LPH
POTABLE WATER PRODUCTION

200,000 L
ON-SITE STORAGE CAPACITY

48 HOURS
WATER SECURITY BUFFER

0
OPERATIONAL IMPACT DURING MUNICIPAL WATER OUTAGES

COMPLETE WATER SECURITY SOLUTIONS

WATER SECURITY

- Groundwater feasibility studies
- Borehole drilling
- Yield testing
- Water use licence support

WATER TREATMENT

- Nanofiltration systems
- Potable water production
- Water quality monitoring
- Regulatory compliance

STORAGE & INFRASTRUCTURE

- Bulk storage solutions
- Integrated supply systems
- Containerised treatment plants
- Backup water security

COST OPTIMISATION

- Reduced municipal dependency
- Lower operating costs
- Improved efficiency
- Long-term savings
